

Ashley Sample Management Agent - User Guide

Easily manage sample information through Feishu chat

Quick Start

Chat directly with the bot in Feishu. Supports text, images, and files.

1. Product Entry

Entry with Number

```
UE0890, Nordic sofa, FOB 385, cube 17.9
```

Entry without Number (system auto-generates placeholder)

```
Longwei sofa, FOB 385
```

Entry with Supplier

```
ARI mattress, DDP 420, market US
```

After entry, a confirmation card will pop up. Reply "Confirm" to save, "Cancel" to abort.

2. Product Modification

Direct Modification

```
Change UE0890's FOB to 400
```

Context Modification (referencing previous product)

```
Change cube to 18.5
```

Change case to title

Add Formal Number

Longwei sofa's number is UE0890

3. Product Query

Query Single Product Details

How is UE0890
Check Longwei sofa

Query Issues

What issues does UE0890 have

Search Product List

What products does Longwei have
What was recorded recently
What has ARI done

4. Image Management

Upload Images

Send images directly, system will prompt for image type selection:

1. Product Image (Product)
2. Note Image (Note)
3. Material Image (Material)
4. Rendering Image (Rendering)
5. Problem Image (Problem)

View Images

```
Show UE0890's product images
Show Longwei sofa's problem images
```

Delete Images

After viewing images, reply with index to delete:

```
Delete 2
```

5. Generate PPT Reports

Generate by Product

```
Generate PPT for UE0890
```

System will prompt for version selection:

- `go_apply` - Product Application Version
- `trip_note` - Trip Report Version
- `factory` - Factory Rectification Version (supports CN/EN)
- `all` - Complete Version

Batch Generate by Criteria

```
Generate report for ARI
Today's sampling report
Generate yesterday's trip_note
```

6. Other Features

Confirm Product Information

```
UE0890 all information confirmed
This one is OK
```

Admin Commands

```
/userlist
```

```
/setrole xxx supplier
```

packing_size	Packing Size	210x95x45

Tips

- Standardize Input:** Try to enter product information in standard format with accurate wording for better results
- Context Association:** In continuous conversations, you can use "it", "this one" to refer to previous product
- Confirmation Mechanism:** All entry/modification will preview first, no need to worry about mistakes

- 4. **Batch Images:** Can send multiple images at once, system will process one by one
 - 5. **Rich Text Input:** Text + images together to reduce confirmation steps
